In 1986 Tillie Burgin started 6 bible study groups on behalf of First Baptist Church of Arlington, the groups soon expanded to include helping the local impoverished with services like child care, free medical and dental care and transportation amongst many other services. She also held numerous positions in the Arlington Independent School District and traveled with her husband to Korea as a missionary. She has been recognized numerous times for her investment in our community perhaps most notably by former Governor Rick Perry. It was my honor to present her with a resolution recognizing her dedicated service to our community and thank her at the monthly board meeting. This is her 30th year with Mission of Arlington and Bethany and I both have grown to love and respect this woman. — with Tony Tinderholt.
