TILLIE BURGIN

Sometimes, I just wish you could be with us in the “daily walk” we have with people who come here looking for their physical needs to be met. So many leave here changed, on a new journey, because they know they have experienced God, the only real HOPE that works forever. This note came recently from one who found that hope:

“A few years ago I had made some real bad choices as a 14-year-old. I had no place to go, so I hid outback at the Mission Arlington office. I was soon discovered by a lady who was dropping off some clothes and other things at the Mission. She saw I was in pretty bad shape. I will never forget how the lady parked her car, got out and came to me and said, ‘How can I help you?’ The next thing I knew was that I had several nice people taking me into the Mission.

I was being seated in the kitchen, and food was quickly brought to me. I wondered if I could really trust what was going on here, but they truly cared for me. Many years later, as I drove up to the Mission and just stopped and thanked God, because I can remember as a 14-year-old kid I was broken and without hope.”

Today there is nothing but restored life and a real desire to keep bringing to the Mission what I have so someone else out there like me can find what I found.”

Thank you, my friends. You do make a difference as you continue to give and pray.

Our Medical Clinic Treats More People

The capacity of our medical clinic to provide health care for people continues to strengthen. In 2022 we treated 14% more people than 2021. In 2023, we are on pace to increase another 17%.

We currently have 30 medical providers and volunteers, treating patients in over 9 different disciplines. Diabetes and related illnesses have presented the greatest need, followed by hypertension.

The addition of new pediatric doctors means that children are our largest growing demographic. We are able to treat children on a same-day basis. Wow!

As with all of Mission Arlington® services, people are treated with dignity and respect as they receive care. Plus, the medicine & medical services are absolutely free.

In our 38th year, our goal is still the same - to share God's love with everyone we can - "one life at a time."

Tillie Burgin has been here since the beginning.

With God's help, and with your constant support, we are caring for more people - in more ways - than ever before.
